

## OUR PLEDGE AND GUARANTEE

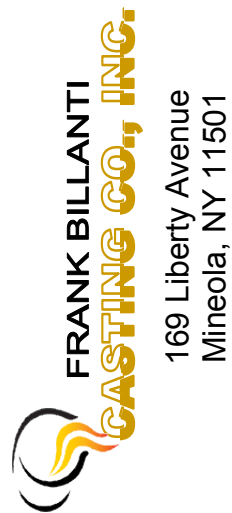

We pride ourselves in the excellence of the work we produce, and we pledge our dedication to make your designs a success.

We guarantee we will provide our customers with the best quality of castings their models can achieve, at a very fair and competitive price, and at the shortest delivery time possible.

We treat our customers with the respect they deserve, and we welcome their input and comments about the work that we provide for them.

We protect their designs and the privacy that our customers have entrusted us with.

We pledge our best efforts, honesty and integrity to every customer who will send us their orders for reproduction.

## ABOUT OUR COMPANY

Frank Billanti, a Craftman with 35 years experience in the casting field, has formed his own company with the main purpose of providing customers with excellent quality craftsmanship.

The main goal of the company is to reproduce your designs, in gold, silver, brass and bronze, to the highest quality castings at very competitive prices, with a fast delivery time.

We strive to maintain a personal interaction with our customers, as we aim to establish lasting relationships.

Our vast experience in the industry makes us your best choice to reproduce your pieces with every detail with which they were designed. We guarantee our quality and we protect the privacy of your designs.

Each casting is carefully inspected and approved prior to shipping.

We look forward to receiving your orders and becoming a part of your production team.

## SERVICES AVAILABLE

### [Model making](#)

Starting with your ideas or designs on paper, we can create your wax model for reproduction in any metal of your choice. If you can describe it, we can design it, using CAD technology.

### [Wax Models](#)

We inspect the wax models we receive for any possible problems that may occur when casting. We will make suggestions on how to correct the wax to avoid problems. Wax models are accepted for mold making as well as direct casting.

### [Mold Making](#)

We create vulcanized rubber and silicon molds from metal models. We also make silicon molds from waxes if needed. We also can make silicon molds from a variety of other materials.

### [Casting](#)

We cast your pieces in these metals:

- 10K, 14K, 18K and 22K  
Gold- White, Yellow, Green and Pink varieties.
- Sterling Silver and Deoxidized Silver
- Platinum • Brass • Bronze

### [Finishing Services](#)

~ Sprue removal ~ Tumbling finish  
~ Finishing ~ Polishing ~ Stone setting

## WHAT CAN WE CAST

Utilizing the Lost Wax Process, we are able to direct cast any material which burns out completely and cleanly leaving no ash or residue behind.

This includes waxes, some plastics, some natural wood materials, as well as other nature or sea materials. We will test the natural product to confirm its burn out ability.

In addition to the traditional jewelry pieces, we can cast a wide variety of creations, such as buckles, statues, equestrian items, decorative ornaments, among others.

Our technical staff is always available to advise you in every step, and discuss your design reproduction with the best quality, while eliminating problems. This service is provided at no cost to the customer.
